I have had the pleasure of working together with Mohammad Alam and Sourcing Hands for 5+ years on a multitude of challenging development and sourcing projects. Alam has been diligent from day 1 in pursuing the best possible factories and prices as well as excellent attention to quality and construction. He has excellent knowledge of factory capabilities and is able to provide problem solving solutions from finishes to packaging and delivery. Honesty, diligence and loyalty are key aspects of why my company has chosen to work with Sourcing Hands and Alam for the past 5 years, and will continue into the future.

I purchased product from Sourcing Hands, and found M. Alam and his co-workers easy to work with. They understood our quality needs, and most importantly the delivery requests.
