

Testimonials

Gaye Cevikel

Founder and Chief Creative Officer at GAIA&GINO - Creative Director at Nude Glass

November 26, 2013, Gaye was a client of Waseem's

Waseem is a very trustworthy sourcing agent in India who understands quality and design. He never let us down.

Thien Nguyen

Vietnam Quality Operation Manager at Riverside Furniture Corporation

August 18, 2011, Thien was a client of Waseem's

Waseem together with his team in sourcing hand is our trusted agent. We really extended our hand and eye in India when getting Waseem there in India. Sourcing hand possess a wide vendor data base so he helped us easier in finding what we need. His team also worked dedicatedly, offered output with good quality and on time shipment. I will be self-confident to recommend sourcing hand for your business if you like to find an agent to do what you need in India.

Paula Zanger

Orange HOWELL Project & Design Within Reach - Account Executive

June 26, 2009, Paula worked with Waseem but at different companies

Waseem developed beautiful silver-plated products for the New York Botanical Garden - Faceted Feather Collection designed and produced while I was Creative Director at Lunt Silversmiths. I appreciated his willingness to work diligently and detailed within a very short timeline. A pdf example can be found under Extraordinary Solutions <http://www.orangehowell.com/x.html>

All the Best,

Paula Zanger

Alessandro Latini

Partner + Designer at SOBU

August 4, 2011, Alessandro was a client of Waseem's

Waseem and Sourcing Hands have provided great furniture and accessory sourcing services for us. His staff pays great attention to quality and on time delivery, and the communication and response time is always prompt. Doing business in India is certainly different than China or other Asian countries, and having an honest agent who is very tough on quality is imperative.

Linda M. Shea, C.P.M.

Director of Fulfillment & Client Services at HMI Award

July 14, 2009, Linda M. worked with Waseem but at different companies

Waseem is a detailed product development professional. He is current with manufacturers in many materials and stays on top of each item he is working on for his customers.
